To Whom It May Concern:

This letter of recommendation is written for Yassmine Kelly who began working as a Crisis Tech here at Resolve August 21, 2022. I highly recommend Yassmine for consideration for the therapist role. The basis for this recommendation is that she exhibits the traits that I feel necessary to be the person that we would want to continue to work in the behavioral health field and help the community that we serve. The traits I speak of are intelligence, dedication, and motivation. Her dedication to outstanding work performance is attested by her good record. Yassmine's high level of motivation is displayed by her continued interest for knowledge. In addition to the above, Yassmine embodies numerous other high admirable qualities, which are indicative of the type of person she is. She is of impeccable moral and ethical character and is an ideal role model. Her magnetic personality provides her with a special appeal to all people. She uses her unique appeal and experiences both wisely and responsibly. Based on these qualities, I give Yassmine my highest recommendation without reservation. I am sure she will prove to be a very valuable asset to this program.

Sincerely,

Adrienne L Honaker, MA
